

COMPANY PROFILE

GSV

ABOUT OUR COMPANY

GSV Innovations was established in Abuja, Nigeria. GSV Innovations Ltd is a provider of high-level Security Systems, Retail Security Solution, Building Automation, Home Automation, Audio Visual Systems, IT & Telecommunications, ICT & other Electrical Systems for commercial, government and industrial sectors throughout the Nigeria. We are committed to you in the strategic design and seamless execution of innovative, state-of-the-art technology security systems that are delivered within budget and agreed time scales. Our core strength is based on GSV Innovations investing in its people and its products to protect your people and your assets with continued growth throughout the Nigeria and West Africa. GSV Innovations world-class security technology is supported by highly experienced security specialists, design engineers, service and maintenance professionals all furnished with years of experience in the integration of major systems.

We stand out from other competitors in the market not only with our numerous services but also because of several reasons like regular service checks, user friendly appliances, customer friendly staff etc.

Our sales team is enriched with the ability to garner onto new projects, which in turn are accomplished by our efficient team of service engineers and technicians.

We select appropriate places as to where our equipment is to be installed rather than leaving that burden to the customers, for example in case of security installations, we select which places in the building or within the organization are prone to threats and need constant surveillance and then only after the customer's satisfaction about the place, we go on with the installation. We understand your needs and act appropriately.

We also advice the customers as to which process of installation would be more cost effective, where at the same place quality is one which we do not compromise. We make sure that we deliver the best quality products in the market at a very affordable price range.

Mission

To be a Competitive & Quality Value Provider in Electronic Security & Surveillance Business. To provide latest Technology & Service through sustained Research, Development and through partnership with International Suppliers. To

Vision

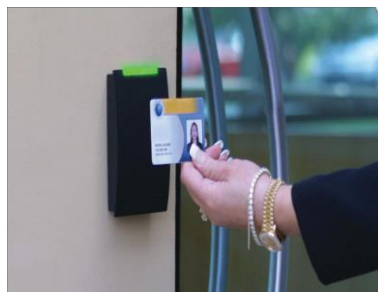

To become nationally Networked Enterprise in Electronic Security & Surveillance System with Innovative Solution under One Roof.

Extra Low Voltage & Security System Department:-

On a happy note, it can be said that the world today is growing in leaps and bounds but unfortunately the threat to our individual concerns, be it to our facilities and firms or organizations has been growing at an alarming rate at the same time

So nowadays security has become an essential and mandatory requirement for all of us, no matter what level we are dealing with.

We, at GSV Innovations deal with the security needs of our customers. We excel at security services such as CCTV surveillance, intercom, access control system, time and attendance systems, gate barriers, biometric readers, intrusion alarm systems etc.

CCTV SYSTEM: CCTV System is an effective prevention technology, Video Surveillance (CCTV) utilizes the latest digital technology to Monitor access to secure areas, unauthorized activities, theft or criminal damage and personal safety or even provide a remote response to an intrusion.

ACCESS CONTROL SYSTEM: From single store to chain of retails or the whole edifice Access Control Systems (ACS) is designed to control Access for Employees and visitors by utilizing multiple technologies such as swipe cards, proximity cards, PIN entry keypads, and sophisticated biometric devices, security systems can be designed around existing hardware to provide an effective solutions for a single or multiple sites

INTRUDER ALARM & PANIC ALARM SYSTEM: This system identifies genuine incidents of forced entry, unauthorized access or personal attack, which generates effective response if any of these occurrences happen.

ATTENDANCE SYSTEM: Time Attendance System allows the company to manage, monitor employee entries, exits, breaks, absence and leaves. Time Attendance system enables to prepare a detail report of employees who are not holding up to your standards of employment.

ANTI THEFT SYSTEM: We help retailers to reduce risks which impact their business in case of shrinkage. We offer Electronic Article System to prevent asset loss from shoplifting, theft, shrink and fraud etc.

**MAKE OUR
WORLD SAFER**

Audio Visual System

We at GSV Innovations offers the latest equipment in Audio, Visuals, Simultaneous Interpretation, Projection, Lights, Sound, Public Address, Digital Signage Solution, Video Conference, We realize that you only have one chance to make a great presentation. We offer reliable and creative solutions backed with the latest technology & excellent customer service.

Our professionals will design the right audio video solution for your next venue delivering crystal clear sound to all ends of the room with intelligent, state of the art lighting systems to enhance your meeting.

AUDIO VISUAL: The extensive range of branded products is constantly updated, to reflect the latest developments in multimedia projectors, flat screen displays, interactive presentation technology, furniture and meeting room equipment - offering reliability, high quality and exceptional value for money.

VIDEO CONFERENCE SYSTEM: In partnership with the leading manufacturers, we provide impartial advice, design and installation services for world-class videoconferencing systems. This includes portable, desktop, 'roll-about' and self-contained units, bespoke integrated solutions for permanent installation and the integration of videoconferencing into existing AV systems.

DIGITAL SIGNAGE SOLUTION: Electronic information display is now an important resource for business, government education and organizations throughout the public sector. GSV Innovations offers a range of complete solutions from flat screen displays, stand-alone kiosk units and signage software to the design and installation of complete signage networks.

PUBLIC ADDRESS SYSTEM: We at GSV Innovations provides Public Address System (PA system), is an electronic sound amplification and distribution system with a microphone, amplifier and loudspeakers, used to allow a person to address a large public, for example for announcements of movements at large and noisy air and terminals, warehouse, factory etc.

AV/IT Integrated System: GSV Innovations AV systems represent a range of permanent audio visual solutions unrivalled in the Dubai & Middle East. Combining the very latest in multimedia display techniques, digital control technology and bespoke, furniture craftsmanship, every GSV Innovations installation provides the power to present easily and professionally - every time.

GSV Innovations are designed and built totally in-house, ensuring consistently high quality and reliability. More than forty years of experience and innovation has gone into the development of our exclusive control system range, featuring touch screen control interfaces including AMX, Crestron and Extron.

ICT –IP Solutions

We provide Installations for Data & Voice Cabling, network installation, and network maintenance & structured cabling. Our premise design and installation specialists bring to your project a perfect blend of high technology and Latest fashioned work ethics and workmanship.

We take particular pride in maintaining all our cables and systems. Let our skilled professionals engineer a state-of-the-art network infrastructure so your company can function at maximum efficiency

We do all the telecommunications tasks required within a firm or an organization to the needs of the customer. We deal with analog and digital PABX systems, IP telephony, high speed internet solutions, and wireless solutions.

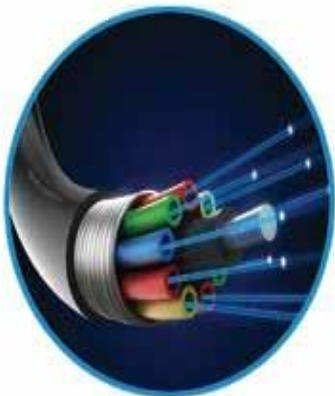

STRUCTURED CABLING SYSTEM (SCS): Structured cabling systems are becoming increasingly complex and sophisticated, meeting greater demands and workloads. With emerging connectivity developments in hardware and software, structured cabling system tolerances are becoming ever more stringent. A networks physical infrastructure must incorporate security and integrity into its inherent design, as well as the ability to adapt to changes in technology. GSV Innovations experienced and dedicated team provides an end to end service from design to implementation. GSV Innovations designs and builds cabling infrastructure systems that support multiple voice, data, video and multimedia systems.

WIRELESS NETWORKING & HOTSPOT: We offer wide range of WIFI system for Office, Home & Hotels. Our Engineers are trained to implement Wireless Network Environment inside the office or connectivity between to building. We do the Supply & Installation of Hotspot System for Hotels & Internet Cafe.

IP & HYBRID PABX: We at GSV Innovations provides installations, upgrades and maintenance services for PABX/ PBX Telephony and PABX/PBX phone systems using VOIP. We also offer products, such as PABX/ IP PBX Telephone Systems, PABX/PBX Phones, VoIP Gateways, and Memory Cards.

We can be your source for advanced phone systems & communications solutions at very competitive prices. From additions to new installs, voicemail, audio conferencing, call auto-attendant, telephone accounting and wireless, etc.

NETWORK SECURITY & FIREWALL: We implement Firewall & Anti Virus setup as per the need and demand of Customer Network.

PERSONAL PROTECTION EQUIPMENT (PPE) SECTION:-

GSV INNOVATIONS Limited consistently offers the best value in safety solutions. We take pride in our ability to provide the best products at reasonable cost. Our range of products varies from simple utilitarian and well-designed products, to specific high-tech product ranges manufactured according to stringent and tested standards acknowledged worldwide

Safety Gloves, Welding Gloves, PVC Gloves, Working Gloves, Cotton Gloves

Safety PVC Boots & Reflecting Cones

PVC rubber boots are designed to prevent you from slipping and sliding.

We stock a collection of durable boots and shoes with protective reinforcement in the toe which protects the foot from falling objects or compression.

Safety Coverall, Working Uniforms

GSV Innovations has lead the way in innovation and quality in the design of working Uniforms or Coveralls for men and women in the construction, oil and gas or allied industries.

Safety Vests

We stock a huge supply of products by category including parking and road safety, crowd control, and construction supplies.

METAL DETECTORS AND SCANNERS:-

Garrett Metal Detectors™ is the global leader of walk-through, hand-held and ground search metal detection products and training for security and law enforcement applications. From the Olympic Games to U.S. and international airports, Garrett® has the proven knowledge, experience and reliable products to meet your security needs.

For over 50 years we have engineered the most advanced metal detection products. Today, Garrett is the most recognized and trusted name in our industry. From our world-renowned Super Scanner® hand-held to our advanced PD 6500i™ walk-through, we have engineered a superior line of metal detectors that give you practical solutions for your security checkpoint installations.

Garrett Super Scanner Hand-Held Metal Detector

Garrett SuperWand Hand-Held Metal Detector 1165800 is a dependable and durable metal detector that features an exclusive 360 degree detection field

Walkthrough Gates

The PD 6500i leads the industry with superior pinpoint technology and unmatched discrimination features. Designed for maximum throughput without compromising security, the PD 6500i is the walk-through of choice for security professionals worldwide.

PD 6500i is an "Approved Product for Homeland Security" under the SAFETY Act.

Bomb Detector

High Quality X Ray Baggage Scanner Low price to meet your choice!

Luggage Scanners

BIOMETRIC SOLUTIONS:-

We offer complete range of Biometric solution
Biometric Attendance Machines

Hardware - Biometrics at Its Best

FingerTec produces sophisticated Biometric products that are affordable and practical for the Workforce Management and Security industry. Manage Time & Attendance accurately and secure your premises with fingerprint and facial recognition technology; combined with a variety of card solutions. You can start detecting true identities in a split second. FingerTec is a one-stop center for your operational needs.

Face Recognition Attendance System

FacePass NEW
Standalone Facial Recognition System

Access in Under 0.1 Second
BioNANO Facial Core Algorithm
Usable in Changing Illumination
Powerful Webservice

The Ideal Non Contact Clocking Solution

Fire Alarm and Fire Suppression Systems

Fire Alarm Systems & FM-200 Systems

They are internationally accepted as providing reliable and effective fire protection solutions for high value assets, processes and locations, as well as the people who work in these protected areas.

Electrically non-conductive, FM-200 works by removing heat from a fire so that combustion cannot be sustained; its unique characteristics also chemically inhibit re-ignition. When it comes to being safe for use, FM-200 delivers, which is why FM-200 systems are approved by LPCB and UL; the best solution where personnel safety and process continuity are paramount.

Fire Hydrants and Water Sprinklers

Extinguishers

Road Blocker & Barriers

The Security Height Road Blockers has lift height options of 353mm & 533mm, with widths up to 5m.

Road Blockers provide higher levels of security with built in stopping power, and are used extensively for premises such as banks, embassies, bullion depots, cargo parks, ports and lorry parks.

100% duty rating - designed for continuous and frequent use. Power is supplied from a three phase 400V power supply as standard.

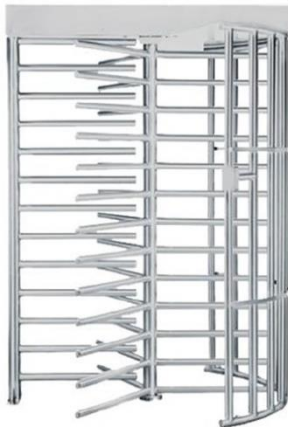

The Road Blocker can be interfaced to any access control systems. Traffic Light System included as standard. It is recommended that the Road Blocker's hydraulic control cabinet is installed within 10metres of the blocker.

Automatic Rising Arm Barrier

Full Height Turnstile model

UPS, Invertors & Batteries

We Deal in all brands of UPS, Invertors & Batteries
Supply, Installation & Repair

off grid solar system

ELECTRICAL & MECHANICAL DEPARTMENT:-

GSV Innovations Limited is one of the foremost Solution Provider in the area of Electrical and Mechanical design,

Electrical Installation from High Voltage to the final Sub circuit, In quality and Standards like BS, and Other applicable

International standards for commissioning and maintenance,

Fire Alarm to the BS Standard, fire extinguishing systems and mechanical installation works, which includes plumbing and air conditioning system.

GSV Innovations Limited as a reputable technical company has acquired lot of Technical experience mostly in area of Electrical Engineering design, installation, testing, commission and handover. Technical Expertise from leaders in Construction Industries in implementation and support of high quality technical works. We have also established a sound strong maintenance culture which has earned us very good relationship with our clients.

Our clients comprise Government (Federal, States & Local) private sectors. International organization, Oil and Gas, etc.

ELECTRICAL INSTALLATION WORKS

GSV Innovations Ltd carries out the following summarized scope of works:

- High – Voltage network distributes electrical energy across a wide range area.
- Supply and Installation of substation to meet our Clients requirement.
- HVAC or AC&V System, Lifts installation, and Sub-distribution boards, Water Pumps, Fire Fighting Pumps by the main distribution system (cables, bus-bar system, etc.)
- Supply and Installation of different kinds of generating sets to provide backup power
- Sub distribution boards / Low Voltage Panels are to be located throughout the building and they contains control and protective devices for the final circuits
- Terminal equipment (lighting, power sockets, small power to meets the needs of the end user / Clients).
- Renovations of existing buildings
- Earthing and Lightning Protection System for buildings and telecommunication equipment's.

FIRE DETECTION AND FIXED EXTINGUISHING SYSTEMS

- The ultimate desire of every company property owner is the protection of those installed precious electronic equipment's, high valued documents, properties and lives within the premises.

MECHANICAL INSTALLATION WORKS

We undertake all kinds of mechanical works which includes Industrial pipe network; Domestic and sanitary wares networks; Fire Hose Reel and Fire Hydrate installations with all approved fire standard equipment's. The fabrication / construction of Ground and overhead Tank installation including Irrigation system. Furthermore we undertake in conjunction with our patterns Bore – Hole and Water Treatment Plant. We also under take plumbing works for estates / complex drainage pipe networks. Air-conditioning system which includes window split and free standing units.

Electrical & Mechanical Jobs completed:

1. Air Services Limited International Airport Abuja (Electrical Installation Works)
2. University of Sokoto, Library Building Project (Electrical & Mechanical) Sokoto.
3. Multi-Link Telecommunication Nigeria Limited (Electrical installation Works) Technical Building Wuse 11, Abuja.
4. New Technics Construction Limited (Electrical & Mechanical Works)
5. Private Properties , (Electrical installation Works) Asokoro, Abuja
6. Sanrounk Engineering Services Limited, Abuja (Electrical installation Works)
7. Metro sources Nigeria Limited, Abuja (Electrical & Mechanical Plumbing Jabi Abuja)
8. National Judicial Commission (Mechanical Works)
9. Federal Judicial Service Commission (Mechanical Works)
10. ARUZONA NIGERIA LIMITES JABI ABUJA – (Electrical Installation Works)

CONSULTING: Our sales on the various services which are offered by us in your interest.

DESIGNING: We make tailor made designs as per your needs. We select all the places where the equipment is to be placed in accordance with the requirement.

INSTALLATIONS: Our efficient teams of engineers are experts in installation of all kinds of products and services we deal with.

MAINTANANCE: We have made a motto for ourselves for providing comprehensive customer care. We give utmost importance to the customer needs after installation. We make sure of the after sale service and maintenance related requirements. We offer regular checks to our products.

The benefits of having a service contract include:

- Service Call Requests 24 hours 7 days a week
- Priority Servicing
- Full system audit
- Maintenance of service records, schematic drawings etc
- Telephone support for operators
- User training, operator manuals and aide memoirs
